Summary

Versatile software developer building a broad technical profile with expertise spanning core programming and full-stack web development. Proficient in C, C++, Python, and Java, alongside frontend and backend web technologies including HTML. Focused on writing clean, efficient code and developing adaptable, end-to-end software solutions.

Skills

- C
- C++
- Python
- Java
- HTML
- CSS
- Supabase
- REST APIs
- Data Structures & Algorithms
- Object-Oriented Programming (OOP)
- Database Management Systems (DBMS)
- Operating Systems
- Computer Networks
- Git
- GitHub
- Vercel
- Linux (Basic)
- npm

Certifications

Infosys Springboard: Artificial Intelligence

Coursera (Google): Crash Course on Python

Coursera (IBM): Introduction to Relational Databases (RDBMS)

Coursera (IBM): Developing Interpersonal Skills

NPTEL: English Language for Competitive Exams

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology

Aug 2025 – Present

Sri Krishna College of Engineering and Technology (SKCET), Coimbatore, Tamil Nadu, India

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Object-Oriented Programming, Discrete Mathematics, Calculus, Probability.

PROJECTS

Chréma — Personal Finance Web Application

- Developed a personal finance web application to help users track income, expenses, budgets, savings goals, and bill reminders.
- Built a responsive user interface and integrated financial analytics for better expense visualization.

Technologies: React, TypeScript, Vite, Tailwind CSS, Supabase, Vercel

TrustNexus — AI-Powered Scam Detection Platform

- Designed an AI-powered platform to detect phishing links, fake job offers, deepfake videos, cloned voices, and online scams.
- Focused on improving digital safety through AI-based analysis and community scam reporting.

Technologies: AI, JavaScript, Supabase, Vercel

Student Management System

- Developed a console-based application for managing student records using file handling.
- Implemented record creation, update, search, and deletion functionalities.

Technologies: C++, File Handling
